

## Announcement on the migration of email domain addresses to @aseglobal.com

*Dear Customers and Partners*

### Announcement on the Migration of email domain addresses to @aseglobal.com.

We are pleased to announce a corporate-wide program to migrate all ASE employees' email addresses to @aseglobal.com. We wish to assure you that the migration program will not in any way affect our continuous quality service to our customers.

Upon completion of the migration exercise, ASE Group members will have an email domain address consistent with our corporate website [www.aseglobal.com](http://www.aseglobal.com). The new addresses will also maximize the communication flow between our customers, partners and ASE, while eliminating the confusion of different domain names.

The exercise will occur in phases at each of our facilities and the schedule is outlined as follows:
