

ASE GROUP SPONSORS 2004 FSA SUPPLIERS EXPO TAIWAN

Taipei, Taiwan., November 10, 2004 –Advanced Semiconductor Engineering Incorporated (ASE, TAIEX: 2311, NYSE: ASX), the world’s largest semiconductor packaging and testing company, has announced that it will be a platinum sponsor for the Fabless Semiconductor Association’s (FSA) 2004 FSA Suppliers Expo Taiwan. This inaugural event, co-organized by the Taiwan External Trade Development Council (TAITRA), will be held on November 11, 2004 at the Taipei International Convention Center in Taipei, Taiwan.

The 2004 FSA Suppliers Expo Taiwan will feature the Semiconductor Leaders Forum, providing business educational sessions and networking opportunities for executives, managers and engineers from semiconductor companies. Additionally, the event will showcase exhibitors demonstrating their products and services. Exhibitors will represent a variety of suppliers to the fabless segment, including those offering services for assembly/packaging, burn-in, test, design software, equipment, photomasking and wafer manufacturing.

“ASE Group is a prominent member of the Asian semiconductor industry and well known around the globe for its superior packaging and test technology,” stated Dr. Jeremy Wang, FSA Asia-Pacific executive director. “We are honored to have ASE Group as a platinum sponsor of our inaugural FSA Suppliers Expo Taiwan and look forward to the company’s participation in the event, providing our members with educational information about the latest developments in packaging and test technology.”

“Over the past 20 years, ASE, as a back-end manufacturing service provider, has played a significant role in the success of fabless IC start-ups as well as the increased outsourcing by integrated device manufacturers (IDM),” said Dr. Ho-ming Tong, Vice President of Corporate R&D, ASE Group. “ASE is a member of the FSA since 2001 and is pleased to support the first annual Suppliers Expo held in Taiwan. We commend the vital role that the FSA has played in the promotion and success of the fabless and ‘fablite’ semiconductor business models.”

About the Fabless Semiconductor Association

The FSA is the voice of the global fabless business model. Incorporated in 1994, the

Association positively impacts the growth and return on invested capital of this business model to enhance the environment for innovation. The FSA provides a platform for meaningful global collaboration between fabless companies and their partners; provides members with timely research and resources; and identifies, debates, and discusses business and technical issues. FSA members include fabless companies and their supply chain and service partners and represent more than 21 countries spanning North America, Asia-Pacific, Europe and the Middle East. www.fsa.org

About ASE Group

The ASE Group is the world's largest provider of independent semiconductor manufacturing services in packaging and test. As a global leader geared towards meeting the industry's ever growing needs for faster, smaller and higher performance chips, the Group develops and offers a wide portfolio of technology and solutions including IC test program design, front-end engineering test, wafer probe, wafer bump, substrate design and supply, wafer level package, flip chip, system-in-package, final test and electronic manufacturing services through Universal Scientific Industrial Co Ltd, a member of the ASE Group. The Group generated sales revenues of \$2.9 billion in 2003 and employs over 55,000 people worldwide. For more information about the ASE Group, visit www.aseglobal.com.
